

ALEX WONG YUNG FEI

Bachelor of Science with Honours (Information Technology) | Internship Seeker

alexwongwyf@gmail.com | +6018-399-0717 | [GitHub](#) | [Linkedin](#)

Kuala Lumpur, Selangor, Penang

SUMMARY

Information Technology undergraduate seeking a six-month software engineering internship from **September 21, 2026, to March 22, 2027**. Passionate about building responsive cross-platform applications and robust backend APIs.

EDUCATION

University Utara Malaysia October 2023 - Present

Bachelor of Science with Honours (Information Technology) CGPA: 3.9

- **Major:** Software Engineering
- **Related Courses:** Web Engineering, Mobile Programming, Real-Time Programming, Component-based Development, Database System, Software Testing
- Achieved Dean's List for all consecutive semesters

Pudu Jaya Sixth College

July 2021 - April 2023

Sijil Tinggi Pelajaran Malaysia

CGPA: 3.92, MUET: Band 4.5

PROJECTS

Final Year Project:

Developed Campus Bazaar, a cross-platform marketplace app using Flutter, delivering a unified UI for both mobile devices and web browsers.

- **Project:** Developed Campus Bazaar, a cross-platform marketplace app built with Flutter delivering a unified UI for mobile and web.
- **Frontend:** Flutter with responsive layouts, theming, image caching, SVG support and UI packages for carousels and fonts.
- **Backend :** Firebase for authentication, real-time data and storage
- **Payments:** Stripe integration using a Node/Express payment server and client-side Stripe SDK flows.

Academic Project:

Developed ConfEase, a Full-Stack Conference Management web application built to automate academic paper submissions, peer reviews, and event scheduling.

- **Frontend:** Developed a responsive Single Page Application using Angular, featuring secure, role-based dashboards and automated UI testing with Playwright.
- **Backend:** Architected a Spring Boot REST API using Spring Data JPA to manage complex peer-review workflows and activity logging.
- **Database:** Designed a highly normalized MySQL relational database to efficiently handle dynamic user permissions, multi-author papers, and granular scoring criteria.
- **Devops & Deployment:** Containerized the entire application using Docker for streamlined local development. Utilized Jenkins for automated testing and continuous integration pipelines.

WORK EXPERIENCE

- Barista | Black Whale Cunfry
- Waiter | Johnny's Restaurant

May – September 2023

April – July 2021

SKILLS

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, PHP, SQL, HTML, CSS
- **Frameworks & Libraries:** Spring Boot, Angular, Bootstrap
- **Tools & Technologies:** Node.js, Docker, Git, GitHub, Postman, XAMPP, MySQL
- **Testing & Automation:** Selenium WebDriver, Playwright, Jenkins
- **Development Skills:** API Integration, UI/UX Design IDEs & Design
- **Tools:** IntelliJ IDEA, Visual Studio Code, Figma

Language

- Malay (Fluent)
- English (Fluent)
- Mandarin (Fluent)
